

## “FOR THE MANY NOT THE FEW”

Ever wondered why, in a land of 26 million people living on a resource rich continent, we still have so many Australians having so much difficulty making ends meet?

Ever wondered why your children, grandchildren and their friends have so much trouble accessing adequate education and health facilities while those who are in a position to buy the best education and health care money can buy, never seem to have any problems?

Ever wondered why honest Australians who pay their taxes and obey the law have so much trouble finding suitable accommodation, secure full-time employment and have so much trouble accessing suitable education and health care for their children while those in positions of authority and power, who use every trick in the book to not pay taxes and enrich themselves at the community's expense, do so well in Australia?

Ever wondered why the 30% of Australians on a Newstart Allowance, Old Age Pension, Disability Pension or Single Parent Benefit are treated so shabbily by big business, government and the media?

If you've answered yes to any of these questions, you're the person we've been looking for.

Public Interests Before Corporate Interests is a social movement and political party.

### **AIMS**

We aim to ensure the interests of the Australian public are put before the interests of unaccountable corporations whose major responsibility is to create ever increasing profits for their major shareholders, irrespective of the human, social, environmental and national costs. That tiny section of society that owns the means of production, distribution, exchange and communication have become so powerful they are instrumental in setting the parliamentary agenda and determining who governs us. It's time Public Interests were put Before Corporate Interests.

### **MEMBERSHIP**

Membership is open to people of all religious beliefs and those who have no religious beliefs. We welcome people of all races, nationalities, genders and sexual orientation. We believe all human beings are born with inalienable rights and liberties no government can legislate away or corporations take away.

**JOIN** Public Interests Before Corporate Interests today and help make Australia a country where each and every one of us can enjoy the extraordinary wealth this country has to offer.
