

TIME FOR A CHANGE

So...the Liberals are loathsome, the ALP are awful and the Greens, despite their good intentions, still have fundamental illusions about the market.

There is something you can do. We in Public Interests Before Corporate Interests (PIBCI) are founding a new type of political party, one that realises that real power is outside Parliament but that fighting elections nevertheless has a useful part in defending the public interest.

If you didn't want to see electricity and gas and the rest privatised, and if you don't want to see schools and hospitals and the rest further privatised, you don't have to just stand around wringing your hands. You really don't. You can help us do something about it. Have a talk to us and consider joining.

We need 550 people to sign up so we can register as a political party for Federal elections. If you sign up this won't cost you anything. Once registered we can put the party name on ballot papers which will make standing for election much easier. Standing for election isn't all we plan to do but it is one important tactic.

HOW ARE WE DIFFERENT?

Public Interests Before Corporate Interests is based on local branches. Local branches are autonomous.

AIMS

We aim to ensure the interests of the Australian public are put before the interests of unaccountable corporations whose major responsibility is to create ever increasing profits for their major shareholders, irrespective of the human, social, environmental and national costs. That tiny section of society that owns the means of production, distribution, exchange and communication have become so powerful they are instrumental in setting the parliamentary agenda and determining who governs us. It's time Public Interests were put Before Corporate Interests.

PIBCI is an inclusive group.

MEMBERSHIP

Membership is open to people of all religious beliefs and those who have no religious beliefs. We welcome people of all races, nationalities, genders and sexual orientation. We believe all human beings are born with inalienable rights and liberties no government can legislate away or corporations take away.

ACTIVITIES

Public Interests Before Corporate Interests is a political party that uses:

- Electoral Politics – standing candidates in both the House of Representatives and the Senate at Federal elections.
- Non-Violent Direct Action – protests, vigils, petitions, strikes and occupations.
- Community Boycotts – to put public interests before corporate interests.

PIBCI is a federation of local branches. Local branches use direct democratic processes to make decisions and use the delegate system to co-ordinate activities at a local, regional and national level.

If you are interested in learning more about PIBCI in a friendly environment
